ABOUT US

OVEL is one of the most exquisite inventions that make furniture more beautiful, functional and long lasting. While there is plethora of Laminate manufacturers, we present to you OVEL, the new entrant with latest technology and naturally appealing designs in laminates replacing wood.

OVEL, the company floated by a group of staunch and successful businessmen, seeks to enhance the aesthetics of application of MICA through superior designing, smart manufacturing and deep touches to consumers' needs and wants. While we are focused on meeting customer needs, we also view this business as an opportunity to save and revitalize the Environment. As more people use laminates of OVEL, there will be lesser need for cutting trees as our laminates fully and totally resemble natural wood effects.

KITCHEN AND DECOR

While contemplating a mica which is immune to finger-marks, we have come up with three neutral colours which stand classic or craze.

These laminates with fingerprint-resistant technology have been uniquely designed to become one of the most desirable interior decors of the contemporary. Unquestionable sustainability with a smear, smuge-proof smooth surface, not only leave you with a sense of wonder but also, demands less attentive maintainance for an ageless living .
