LIONIA®
LAMINATES

Day & Night

LIONIA[®]
LAMINATES

This collection has a glamorous range of PVC laminates of top-notch quality that defines its perfection in finishing. Our products are manufactured under strict supervision regarding material, processing, finishing as well as packaging. We put our keen efforts into advancing our technology so that our manufacturing processes are effective and efficient.

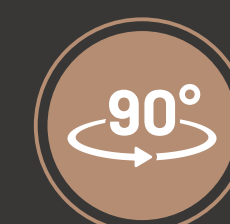

As a brand new company, we have inculcated sustainability in our processes and management as we care immensely about the environment and are trying to give back more than we take. Our team is an organization of professionals and we take a keen interest in improving their capabilities and expertise through thorough training, workshops, and engaging in a healthy working environment. Our strong focus is on research and development. To grow continuously – tops our agenda, as everything depends on our constant efforts and upgrades, and today in the contemporary market it is very necessary to keep evolving according to the dynamic environment.

◆ WHY PVC LAMINATES? ◆

- ⇒ It is a **BETTER LAMINATE** FOR INDIAN WEATHER CONDITIONS AND DUSTY AREAS. Changes in weather & dust particles do not deteriorate the look & colour of laminates. Since it is **100% waterproof**, it can be easily cleaned with water and mild detergent.
- ⇒ **100% TERMITE & BORER RESISTANT** PVC laminates Since it is made with polyvinyl chloride that is the world's third-most widely produced, high-strength thermoplastic material that is completely safe against termite & borer attacks.
- ⇒ **100% COLOUR CORE** base laminates. **LIONIA PVC** laminate has the advantage of colour core base characteristics. The colour core base is a product that has the same colour as on the top surface.
- ⇒ **90° DEGREE BENDABLE** no need of edge band as **LIONIA PVC** laminates are made with top-notch quality virgin polyvinyl material which is very flexible in nature and can be easily bent by cutting with a v-groove cutter.
- ⇒ Made with **100% LEAD-FREE PVC** material, Since **LIONIA PVC** laminate is made with virgin & LEAD-free material therefore it is completely safe to use in the interiors for kids or elders.
- ⇒ If you are an environment lover then you must use PVC laminate for your interior furniture. It is MADE WITH POLYVINYL CHLORIDE WHICH IS COMPLETELY **RECYCLABLE AND REUSABLE**. This way PVC not only decorates your interiors but also takes care of the environment and the earth's resources.
- ⇒ **LIONIA PVC** laminate is MANUFACTURED BY USING SELF PROTECTING SURFACE TREATMENT MATERIAL that makes it **Antibacterial**. It is resistant to multiple microorganisms and bacteria.
- ⇒ **LIONIA PVC** laminate is not only beautiful but also has amazing strength against fire. It is a **FIRE RETARDANT LAMINATES** that is completely safe to use in your kitchen and other locations.

Bendable at 90°

Lionia Laminates in Day & Night collection have extraordinary features for the customer's maximum benefit. Its features make the laminates strong and durable for a very long span of time. Among its many commendable features, the chief ones are – **bendable at 90°**, waterproof and non-absorbent from liquids, Nontoxic and safe, anti-pests or termites, fire retardant, eco-friendly and more. With coming years and advancements in technology, Lionia Laminates shall inculcate further upgrades in its products and features.

morning 
connection with
laminates

Morning connection with laminates portrays the morning collection of laminates which has bright features and a glamorous look under the morning lights and shades. On the other hand, it also emits brighter feelings of liveliness and determination. It brings forward calm yet strong powerful emotions that build a refreshing experience and lays down a beautiful eco-friendly environment. The designing of our strong and beautiful laminates has inculcated imaginative creativity and a strong vision around artistry and nature. The splendid finishing and texture along with colours and patterns give such a natural glow in the morning which you can't find anywhere. It brings richness to your space and home décor in a very classic glimmering way.

Metallic Collection

It gives a sense of a plain yet glamorous feeling. It awakens an aura of distinctive dark colours that portrays a classic contemporary edge to the décor's outlook. It's purely a different colour palette for a different taste.

Rustic *Collection*

The rustic collection is an amalgamation of soft shades and rough colours. It brings a soft glamour and adds a luxurious touch to your home décor with its rich and distinctive colour coordination.

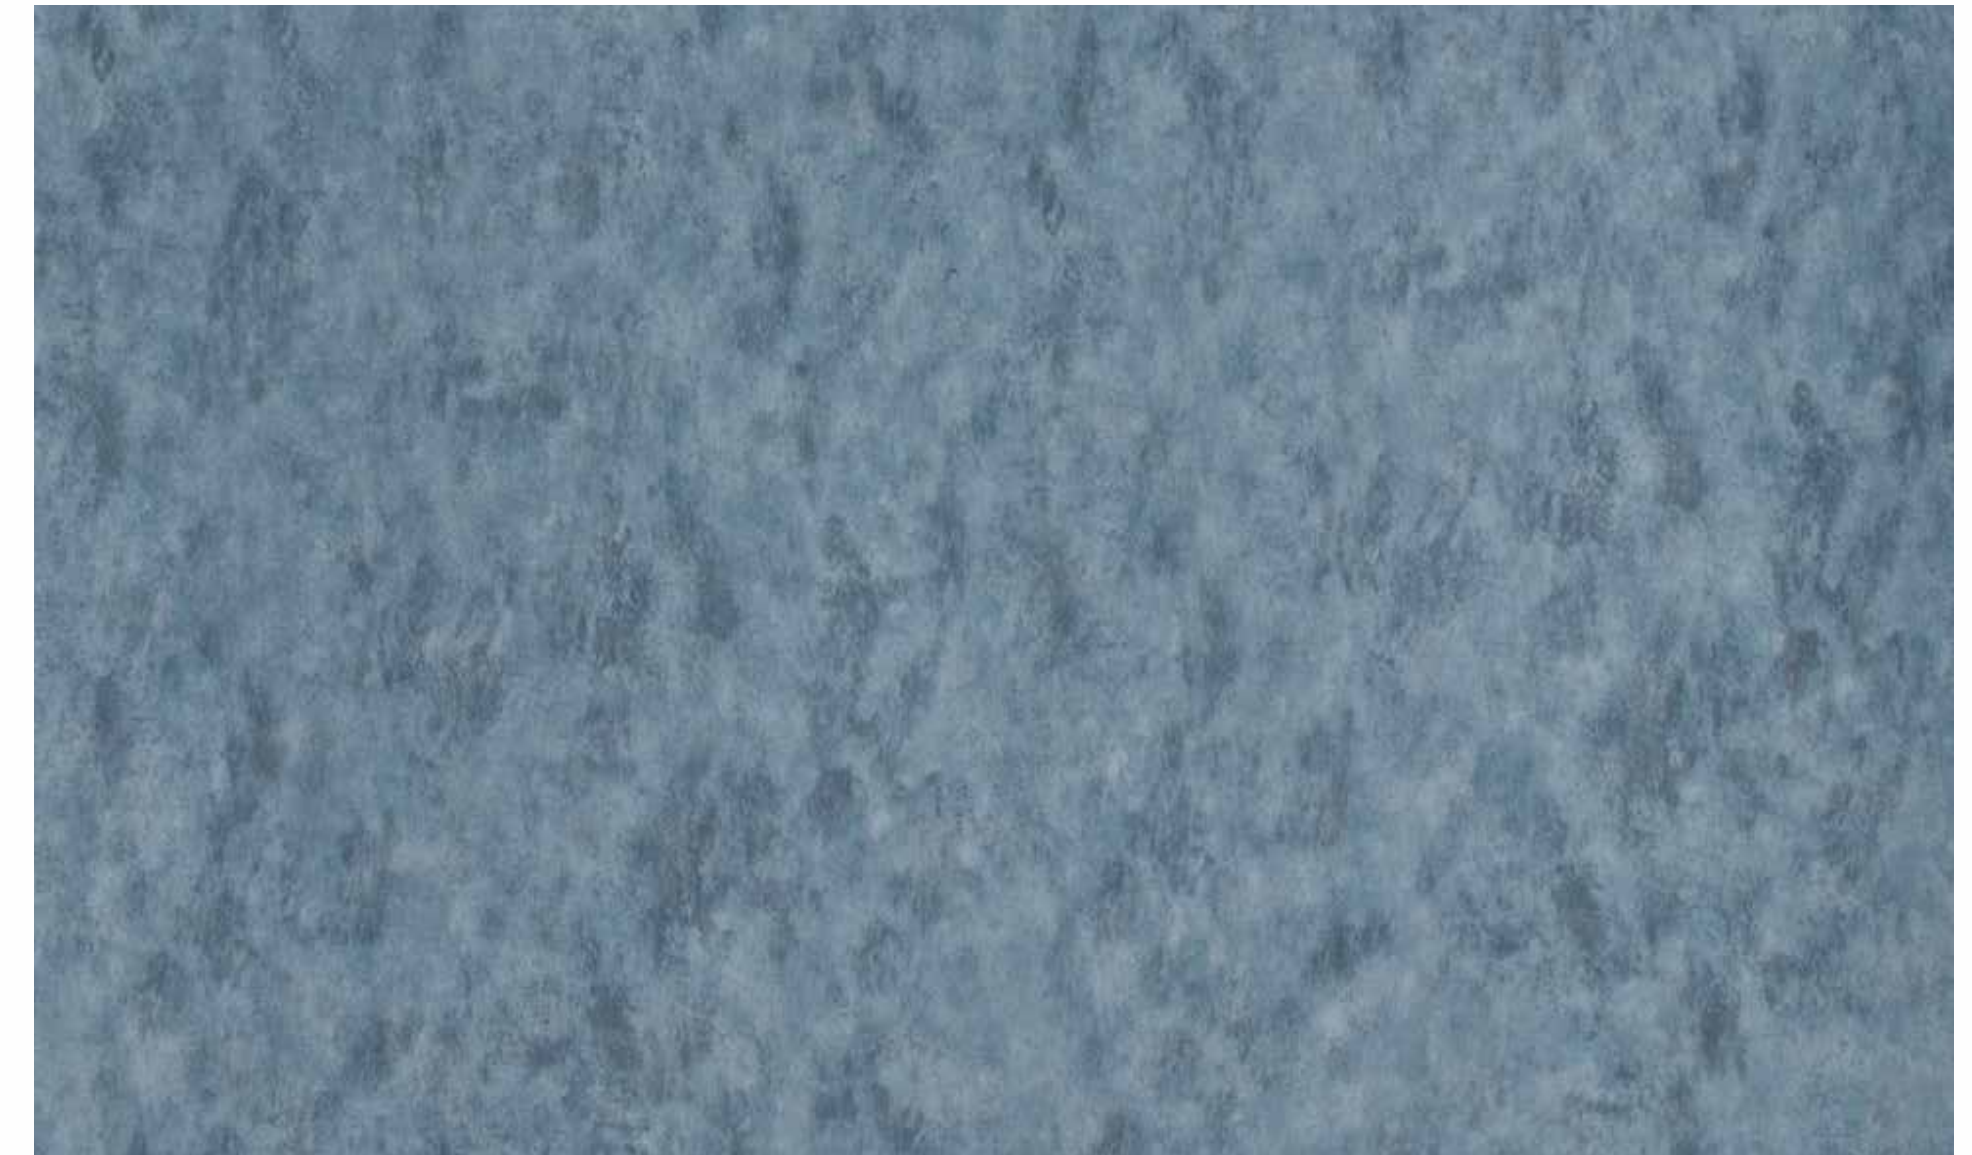

Rustic collection is a very distinctive and special type of printing. We do not recommend the use of any chemical based liquid for its cleaning, only clean water is advised.

night 
connection with
laminates

The night collection of laminates has darker aesthetics and tones. It is a completely different collection to marvel at. It brings up a very strong emotion of serenity and tranquility. It indulges in the depths of intricate patterns, textures, and shades. It has darker shades, yet it has a particular shine to it that brightens up at midnight. The styles illuminate and give a glowing experience in darkness and along with that bring a lavish and contemporary feel to your residential or commercial spaces. It elevates you to a richer lifestyle of grace and elegance.

PVC LINER

THICKNESS:
0.72 | 0.82 | 0.92
SIZE: 8'X4'

- **High Durability** - Lionia PVC Laminates have long-term durability in comparison to other laminate sheets.
- **Crack Free** - Our laminates do not easily crack after application as HPL Laminates do.
- **Unicolor Edge** - PVC Inner sheet is with a unicolour sheet whereas HPL sheet isn't. Therefore edges are more easily visible in others than Lionia sheet.
- **Water Proof** - Our laminates are water proof and therefore there need to be no worries relating to water or moisture coming in contact.
- **Highly Flexible** - Our PVC laminates have high strength and are very flexible and they can be bent at a 90-degree angle. They are easily transportable as the problem of cracking sheets or breaking during the transportation is not there.
- **Less Fevicol** - For pasting PVC Laminate, fevicol used is 25% less in comparison to the fevicol used for HPL sheet.

◆ USE RECOMMENDATIONS ◆

ADHESIVE

Our PVC laminates are easy to apply with the standard laminating system including conventional water and solvent-based adhesives, normally used with plastic laminates. We do not recommend the use of heat-activated adhesives.

CUTTING AND PROCESSING

We recommend the use of a diamond cutter blade for cutting. Use a smooth filer to feather all the corner edges to remove any burns that happened during the cutting process and to be correctly routed and drilled.

LAMINATION

Substrates should be of good quality plywood and careful bonding procedures should be taken. The high-quality substrate has a high-density particle board or high-quality fiberboard. Its surface should be free of any grease, dust, chips, wax, or any kind of foreign matter. We do not recommend any kind of coat for example - melamine, lamination wax, or PU base, on our laminates.

BENDING AND FORMING

Our laminates are bendable on all sides at a 90-degree in the same manner. Kindly use the v-groove cutter to bend the laminates.

CARE AND MAINTENANCE

Cleaning is recommended with mild detergent and soft microfiber cotton cloth rather than harsh liquids or materials. Window cleaners, thinners, ammonia, or any such abrasive chemicals should not be used. Exposure to direct sunlight should be avoided.

KINDLY REMOVE THE PROTECTIVE FILM AFTER 7 DAYS OF INSTALLATION OF LAMINATES.

◆ 90° BENDING PROCESS IN PVC LAMINATE ◆

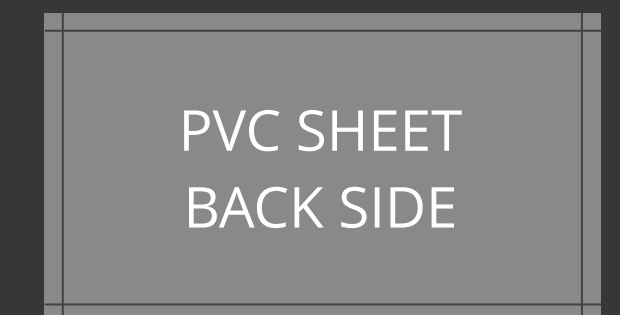

STEP 1

PVC SHEET
FRONT SIDE

Lionia Laminate Sheet shall be cut out according to your requirements.

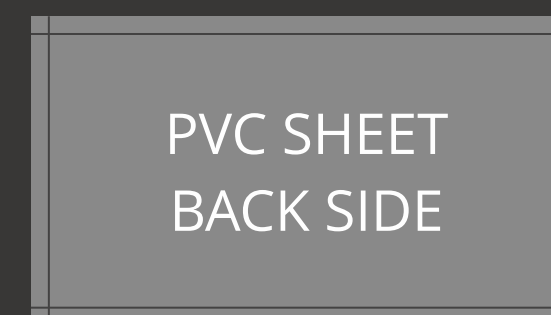

STEP 2

PVC SHEET
BACK SIDE

Use the V-Groove Cutter to cut and make a groove accordingly.

STEP 3

PVC SHEET
BACK SIDE

Use a scissor and cut out all 4 corners of the laminate sheet.

STEP 4

PVC SHEET
BACK SIDE

Bend the PVC Laminate at a 90-degree level according to V-Groove markings, carefully.

IT IS PREFERABLE TO USE EITHER THE U OR V GROOVE CUTTER TO BEND THE LAMINATE AT 90-DEGREE.
