## ABOUT MASKARA

The shaping and carving of every acrylic laminate sheet under our name Maskara is always done with primitive techniques following that of wood. Maskara is a collection of special laminates for our business and residential clients. This collection makes recommendations based on your specific needs. To give an embossed effect on walls or panels and to show your choice stand out, Maskara is the best option one can have.

This collection of 100% acrylic laminates is an exemplar of flamboyance.

## WHATS INSIDE MASKARA?

## ABOUT US

Rang Décor was commenced before decades and has been providing world class decorative PVC and laminate sheets. Our team of experts is dedicated to the quality and timely production with zero depletion and zero failure. Every year we personally look into the productions to bring out creativity and fresh designs with all new patterns. Our products not only highlight the ornamentation but also add a tincture of freshness in everything around! RANG is a world where your space is our Priority!

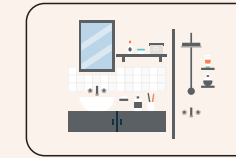

# MASKARA®

Enjoy the exquisite tastefulness of Maskara collection to enliven the presence of bright visionary ideas into your space!

The acrylic laminates line produced under the name collection of Maskara comes with high-quality finesse and colour variances but there are a few warnings that the customer needs to be notified about before buying the beautiful line of Makara products.

- Check the laminate products at the time of delivery. Keen eye for assurance of whether the goods weren't damaged in the transportation process.
- Before installation of the laminate line check for the substrate quality to be superior and of calibrated thickness.
- Make sure to clean the surface of the substrate utilised for any kind of dust or grease with the aforementioned cloth quality of micro fibre
- Always use a high-quality level of adhesive like CHIPKAO produced for all RANG Decor products.
- Stir the adhesive before using it. And do not mix water in the adhesive. Assure even spreading of adhesive with uniformity of a brush, roller or adhesive spreader on the acrylic line of laminates.
- Use the non-printed side of the substrate (Plywood, MDF, Particle Board) for the best results possible.
- Do not use any uneven surface of substrate because it could damage the or affect the Maskara acrylic laminate in its appearance and finishing and could increase the chances of appearance of air bubbles in future.
- Use only soft pinch roller or normal pressing on MASKARA acrylic laminates on the substrate. Pressing should only be done from the middle of the panel and move towards the side line and corners of the panel so that air between the MASKARA acrylic laminate and substrate will be removed.
- Make sure, to give sufficient amount of pressing to the acrylic laminates for almost 12hrs to q5hrs to achieve full bonding strength.
- Do not use synthetic rubber adhesive.
- Please avoid direct sunlight at all point for the acrylic laminates, colour and the finesse to be protected.
- Acrylic laminates is not to be utilised for placement of hot cookware directly. Prolonged exposure to high room temperatures may cause appearance of patches on the surface and damage the acrylic laminates from within.

## APPLICATIONS

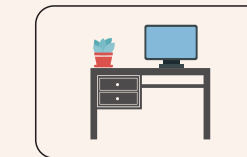

▪ Bathroom

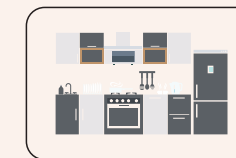

▪ Healthcare

▪ Furniture

▪ Commercial

▪ Kitchen

PLEASE REMOVE PROTECTIVE FILM  
WITHIN 6/7 DAYS OF INSTALLATION

LIGHT  
WEIGHT

The flawless design structure of our acrylic sheets are engineered to be extremely light weight and easy to apply.

1.5mm  
THICKNESS

advanced processing procures the right amount of manufactured thickness which provides forever strength to the laminate sheets.

DURABILITY  
& STRENGTH

Our acrylic sheets developed with technologically advanced processing are Anti-Scratch and stain resistant.

TERMITE &  
BORER FREE

The advanced sciences enables our acrylic sheets to fight against termites and borers for several years.

WATER &  
STAIN PROOF

Our 6h acrylic sheets are manufactured to repel water and stains for a long time.

IDEAL FOR  
VERTICAL  
APPLICATION

The exemplary adhesion properties enables our collection of acrylic sheets to be presented in vertical

Available Size : 2440mm X 1220mm ( 8ft X 4ft)  
**Thickness : 1.5 mm (+/- 10%)**

## FAQS

### CAUSES OF YELLOW PATCHES AND COLOUR FADING AFTER INSTALLATION:

If hot cookware or utensils are directly placed on the laminate

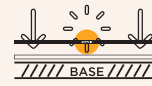

Use of inferior or sub-standard dipped plywood or dipped lipping patti, which may chemically react with the adhesive

The use of synthetic rubber adhesives such as SR / Jat Pat, Bostic, Heatx, etc.

Prolonged exposure to high temperature (above 30°C-35°C)

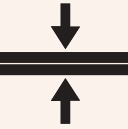

Exposure to direct sunlight can gravely affect a laminate's appearance

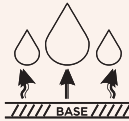

### REASONS FOR AIR BUBBLE FORMATIONS ON LAMINATES:

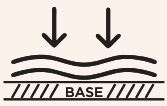

Use of water base synthetic resin adhesive any other than PEVA (Polyethylene Vinyl Acetate Co-polymer)

Insufficient or lack of pressing during the bonding period of laminate

When substrate loses moisture after installation

Debonding in certain areas because of uneven substrate surface

Laminates are bonded in extremely humid conditions

Use of extremely large acrylic/PVC laminate sheets for maximum utilization

**Disclaimer :** There can be colour variation in the material from different batches. It is advised to use same batch material to avoid colour variations. Actual colours of the Acrylic laminate sheets/Acrylic Edge banding may vary from this brochure.

### FOR AN ASSURED GENUINE PRODUCT

Remove safety film with in 6-7 days post application

**100% PURE ACRYLIC**

**6H** Scratch Resistant **EXTRA STRONG**

Use non printed side of base

 <p><b>1.5mm THICKNESS</b></p> <p>For exceptional solidity, our 6H Anti Scratch Acrylic Laminates are available in 1.5 mm uniform thickness.</p>	 <p><b>TERMITE &amp; BORER FREE</b></p> <p>Our laminates are specially treated to ensure they remain termite and borer free for several years.</p>	 <p><b>DURABILITY &amp; STRENGTH</b></p> <p>Our Anti Scratch Acrylic Laminates are extremely strong and durable. They can withstand heavy loads easily.</p>
