## THE RANGE OF MARVELOUS

Acrylic laminates typically have a multi-layer construction. The top layer is made of high-quality acrylic, which can come in a variety of colors, patterns, and finishes. The acrylic layer is known for its glossy appearance, clarity, and vibrant color options.

It is a popular choice in interior design and furniture manufacturing, offering a combination of aesthetic versatility, durability, and ease of maintenance.

# the natural italian gloss marble

Characterized by its fine-grained texture and subtle veining, subtle Italian marble exhibits a remarkable balance between dark tones and delicate patterns. The veining, often in shades of white, gray, or brown, meanders gracefully across the surface, creating a captivating visual contrast that elevates the stone's aesthetic appeal.
