ABOUT US

OVEL is one of the most exquisite inventions that make furniture more beautiful, functional and long lasting. While there is plethora of Laminate manufacturers, we present to you OVEL, the new entrant with latest technology and naturally appealing designs in laminates replacing wood.

OVEL, the company floated by a group of staunch and successful businessmen, seeks to enhance the aesthetics of application of MICA through superior designing, smart manufacturing and deep touches to consumers' needs and wants. While we are focused on meeting customer needs, we also view this business as an opportunity to save and revitalize the Environment. As more people use laminates of OVEL, there will be lesser need for cutting trees as our laminates fully and totally resemble natural wood effects.

VISION | Looking Forward

Design and supply beautiful, high quality, laminates that adorn furniture of the world.

MISSION | Principles we abide by

- Design laminates that are unique and beautifully appealing.
- Supply consistently and as per specification of our customers, in time, quality and quantity every time.
- Satisfy every entity attached to our company and brand.

COMMITMENT | Focus on BIG

Commitment to quality of products is a limited concept at OVEL. We believe in a broader commitment concept where beyond customers and products, we want to be recognized for our commitment to our suppliers, financiers, architects, designers, builders, carpenters and consumers. We are committed to listening to all of you and making changes such that we meet your changes as we progress on the path to global leadership in laminate manufacture and supply.

100% PHENOLIC LAMINATE | ISO CERTIFIED COMPANY | UNIQUE DESIGN

Explore the wide range of laminates by Olix Laminates, and make your space stand out from others. Use the best and innovative laminates that gives real-wood like feeling to give your space an authentic vibe.

## TECHNICAL SPECIFICATION

PROPERTIES	SPECIFIED VALUES AS PER IS:2046-1995	OLIX CONFIRMS
Resistance to surface wear	350 (revolution)	✓
Resistance to immersion in boiling water		
- Mass increase (%)	10.0 Max.	✓
- Thickness increase (%)	11.8 Max.	✓
Resistance to dry heat 180° C	Not worse than 4	✓
Dimensional stability at deviated temperature		
- longitudinal (%)	0.5 Max.	✓
- Transverse (%)	0.9 Max.	✓
Dimensional stability at 20° C		
- longitudinal (%)	0.375 Max.	✓
- Transverse (%)	0.60 Max.	✓
Resistance to impact by small diameter ball	20N Min.	✓
